

I listen to K-LOVE radio which is a national broadcast station heard in my local area on an FM translator [91.1]. I am writing to request that you not permit LPFM's to take priority over current FM translator service. For me and my family of six, K-LOVE is a daily source of encouragement and positive music for us to enjoy. We frequently receive news about upcoming concerts & events that we want to be a part of, and we hear the latest reports about national and global news. We also receive notifications of educational offerings in our area for career development and enhancement courses.

We and many other families we know benefit greatly from a station like K-LOVE and do not want to see it get replaced by an LPFM which may not support the same family-friendly programming or musical format.
